## **General Information about your water service**

Any leaks which occur on the customer's side of the water meter are the customer's responsibility, for both repairs and water loss due to the leak. If we determine there is a leak on the customer side, we will make an attempt to contact you.

Failure by the customer to repair the leak immediately may result in termination of water service until such time the leak has been repaired. Our water rates are based on tiered system which means more is paid per gallon for higher usage, so an unattended leak can be costly.

IT'S FREE, CALL BEFORE YOU DIG.

If you plan on digging, please call 811 seventy two hours in advance for central locates. This is a NO CHARGE service.

## **Important Information about selling water and water theft.**

Water theft cost everyone! If you see suspicious activity or suspect water theft, please report it to the Sheriff's office in the county in which you live.

Reselling water to a third party off the property for which it is intended is against the rules and regulations of the Wigwam Mutual Water Company.

Section 4.2.4 reads "Any person that resells water to a third party from the property stated on the Company Stock Certificate shall, at the demand of the Board, be assessed a penalty of \$5,000, which penalty shall be a lien upon the violators' property serviced by the line where the violation occurred. At the option of the Board, water service may be terminated at the property serviced where the violation occurred."

**DON'T RISK A FINE OR HAVE YOUR WATER SERVICE PERMANENTLY TERMINATED BY  
RESELLING WATER!**
